

CAMINO A LA AVENTURA

PROGRAMA COMPLETO 3 DAYS / 2 NIGHTS

Discover, Live, Dream

DEPARTURE AT 9:00 AM

Departure in the morning from your hotel or the airport by private car or mini-van to reach the port of Nanay-Bellavista. As we head there we will cross Iquitos and give you a brief description of the city and its main attractions.

Departure by boat from the port of Nanay, stopping to observe the union of the Amazon and Nanay rivers. We continue downriver for 1 hour 45 minutes enjoying the beautiful landscapes and the possibility of seeing freshwater dolphins (pink and gray), herons, tipes, kingfishers, turtles among other species along with spectacular trees, plants and flowers.

We will continue the navigation by boat observing some towns on the banks of the river, such as Barrio Florido, and some rural villages, advancing until we reach the rustic-style lodge.

Lunch made with local products, including fresh seasonal fruit juice. We offer vegetarian, vegan and gluten-free option upon request.

Expedition by boat to Monkey Island, where you can observe and interact with macaws, parrots, sloths and, of course, many different species of monkeys: woolly monkey, titi monkey, spider monkey or maquisapa (spider monkey), pichico monkey (tamarin), howler monkey (howler monkey), leoncito monkey (marmoset), among others. Monkey Island is a center dedicated to the rescue, rehabilitation and release of monkeys who are victims of animal trafficking. Its owner is Don Gilberto, who dedicates his life to this purpose. Monkey Island has all its permits up to date and has released more than 200 monkeys since 1997.

After our visit to Monkey Island we will sail in search of pink and gray river dolphins. We will continue by boat to test our skills in piranha fishing, the way the locals do. The guide will teach you and help you, giving you the necessary material for fishing.

Now it's time to relax. This is your chance to jump in and swim in the longest river in the world. We will enjoy a quiet sunset on the Amazon River.

Dinner at the lodge

Night walk in search of spiders, snakes, lizards, frogs and rodents, listening to the different sounds of nocturnal animals that inhabit the jungle.

Sleep in the lodge in private bungalow

PROGRAMA COMPLETO 3 DAYS / 2 NIGHTS

Discover, Live, Dream

DAY 2: SANTA MARIA DE FATIMA

We will wake up very early to start with a morning expedition, walking through the jungle in search of animals and birds. Early morning is excellent for observing animals and enjoying the sounds of nature.

Breakfast with refreshing natural fruit juice. We will prepare for our trip to the Santa Maria de Fátima community, a small town of approximately 200 people in the vicinity of the Amazon River. They develop an ecotourism project and built a 15-meter wooden tower in the middle of the jungle to enjoy the landscape and observe different species of birds in El Garzal. Navigation on the Amazon River to Santa Maria de Fatima. Approximately 30 minute motor boat trip.

Arrival at the community, we will register in the guest book and meet some members of the community. A local guide will join our professional guide. This is part of the sustainable tourism project that helps the community, and at the same time provides us with the experience and wisdom of someone who knows the area in depth. You can review the interview with Don Julio, who has lived in Santa Maria de Fatima since 1950 and is also one of the local guides. Walk in the jungle for approx. 40 minutes. There are chances of seeing monkeys on our way such as the squirrel monkey, the brown pichico monkey or the saddle back tamarin. Try to recognize them with what you learned on the Monkey Island.

We will prepare lunch on the spot with fresh ingredients. We will advance by canoe until we reach El Garzal.

We will climb the 3-story wooden tower (15 meters) to enjoy the scenery and observe birds and animals. We will make an expedition by canoe, advancing slowly through the dense vegetation of El Garzal. Here we can find the Shansho (Hoatzin), a prehistoric Amazonian bird, and different species of herons such as the white heron (snowy egret), the white huapapa heron (white boat billed heron), the huapapa brown heron (brown boat billed heron), among other. Night walk in search of animals such as the hualo toad (smoky jungle frog), lizards, snakes and others. We can also find medicinal plants that grow in this area and drink vine water (called uña de gato). The local guide will give us his knowledge on how they use them.

Before returning to the lodge we will make a canoe expedition in search of white alligators. Navigation back to the lodge on the Amazon River.

Dinner at the lodge.

Sleep in the lodge in private bungalow

CAMINO A LA AVENTURA

PROGRAMA COMPLETO 3 DAYS / 2 NIGHTS

Discover, Live, Dream

DAY 3: RETURN

We will wake up very early and get on our boat to see the sunrise and start with a morning bird watching expedition. Early morning is the best time to observe birds and animals on the banks of the river and inside the jungle, we will take advantage of this opportunity.

Breakfast with refreshing natural fruit juice

Ethnobotanical walk through the jungle to learn about Amazonian plants and their relationship with the people who live here. We will also learn about Amazonian medicinal plants.

We will visit some members of the Yahua tribe, one of the oldest indigenous groups in the Amazon. We will learn some of their songs and dances, and you will have the opportunity to practice your aim with the blowgun. You can, if you wish, support them and contribute to their preservation by buying the handmade crafts.

Lunch at the lodge with typical food.

Return by boat to the port of Nanay and transport by private vehicle to your accommodation or the airport

DAILY SUMMARY

1. Puerto Nanay Bellavista / Union of the Amazon and Nanay rivers / Monkey Island / River dolphin watching / Piranha fishing / Swim in the Amazon River / Sunset on the river / Night walk
2. Animal and bird watching / Santa Maria de Fatima Community / Jungle walk / El Garzal viewpoint / Canoe expedition / Fauna observation / Night canoe expedition
